EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Judge on May 22, 2006.

The application has been amended as follows:

Cancel Claims 10 and 11.

2. The following is an examiner's statement of reasons for allowance: After reviewing the amendment and remarks filed on September 25, 2005, the claims were found to be allowable since no prior art could be found teaching or suggesting an electrical-power-sourceless device comprising: non-magnetic yet electroconductive wire arranged coiling each of the bar magnets in right-hand turns, with respect to the obverse face thereof, from one end to the other end of the magnet in lengthwise direction; the plurality of bar magnets being disposed in, and selected to have a force of magnetic attraction strong enough to hold the magnets together in a configuration forming a tubular hollow with the north pole faces adjoining the south pole faces in alternation, as claimed in Claim 2; and non-magnetic yet electroconductive wire arranged coiling alternate ones of the bar magnets in right-hand turns, with respect to the obverse face thereof; from one end to the other end of the magnet in lengthwise

direction, and on the remaining ones of the bar magnets, the wire is arranged coiling the magnet obverse faces in left-hand turns from one end to the other end of the magnets in lengthwise direction; the plurality of bar magnets being disposed in, and selected to have a force of magnetic attraction strong enough to hold the magnets together in a configuration forming a tubular hollow with the north pole faces adjoining the south pole faces in alternation, as claimed in Claim 3.

Claims 12, 13, 19 and 20 are allowable due to the claims containing the allowed subject matter of Claim 2.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
